The New Dress Fabrics for Spring and Summer Wear.

UR Spring Dress Materials and Gown Fabrics have been selected from the choicest productions of French and English manufacturers.

The loosely meshed veilings and canvases are wonderfully adaptable for the present mode of fashioning gowns. These materials are almost as gauzy as chiffon, and a few weaves are in double thread, which gives a more open effect for the better display of the silk foundation.

Mr. Bryan dwelt at length upon Lincoln as an orator, and said that when the history of our public speakers is written there is not one who will stand ident of the Congregational board of with great problems as a practical statesbecause he was great enough to hate slavery without hating the slave-owner. "And, do you know," he continued, "that is one of the god-like things to a man who has nothing but money."

Mr. Bryan's point was received with great enthusiasm. Continuing, Mr. Bryan said:

"It is the change of the heart of man that makes him hate the things he loved and love the things he hated. It is that transformation in the individual that converts one who could have sacrificed the world for his own advancement into one who would give his life for a principle and esteem it a privilege to make the sacrifice for his convictions.

Change in Ideals.

"In all the journey from the cradle to the grave there is nothing so mysterious and so marvelous as the change in the ideals of a life that will convert a seifcentered human being into a center from that the important influence in all our lives. Faith leads us to do and to dare, and Lincoln had faith. He had faith in himself. He believed that he could do things. He understood the strength of a purpose and its influence upon life.

"He knew the human heart. He believed our form of government would live; that it would spread. It has lived and it has spread. For more than a century our nation has been a world power. More than that, it has been the greatest power in the world. Our greatness is not measured by our army or by our navy, but by our ideals. Our greatest products are not the products of our farms and
